

Sage BusinessVision Accounting: Credit and Debit Card Processing

Sage BusinessVision Accounting is a complete business management solution that provides powerful tools specifically for retail, wholesale, and light manufacturing companies. Sage BusinessVision is scalable, making it perfectly suited for startups and growing businesses alike and is available in four different editions: Limited Edition, Small Business Edition, Standard Edition, and Client/Server Edition.

Sage BusinessVision helps companies service their local market and beyond. The Sage BusinessVision Point-of-Sale module provides all the tools necessary to run onsite sales transactions. In addition to a touchscreen-ready interface, Sage BusinessVision Point-of-Sale includes the capability to process sales using one or more tender type, put the current checkout on hold, put sales on account or layaway, manage customers with multiple locations, and much more.

The screenshot shows the Sage BusinessVision Accounting Point-of-Sale interface. At the top, it displays 'BUSINESS' and 'ACE' for 'Ace Electronics'. Below this is a table with columns for 'Part number', 'Quantity', and 'Unit price'. A search bar shows '1.00000'. The main table lists items: 'Compact Disk Player - 5 disk capacity' (1.00000 EA, 511.90000, 511.90), 'Personal Hand-held Organizer' (1.00000 EA, 410.00000, 410.00), 'Equalizer (7 band)' (1.00000 EA, 107.60000, 107.60), and 'Speakers - Bookshelf' (2.00000 PR, 365.20000, 726.40). On the right, there are buttons for 'Delete Item', 'Return Item', 'Add Item', 'Total Item', 'Commit', and 'Detail Inv.'. At the bottom left, there are buttons for 'Add Sale', 'View History', 'A/R Payments', 'Add Customer', 'Inventory', 'Receipt Sale', and 'Change Mode'. On the bottom right, a summary box shows: Subtotal 1,755.90, Discount 67.80, G.S.T. 116.77, P.S.T. 133.45, Total 1,918.32, and Change due 0.00. The status is 'Normal Mode' and the date is 'Tuesday, June 07, 2011 11:40 AM'.

Sage BusinessVision includes order entry tools that allow you to manage remote customer transactions. Easily enter orders for customers who are calling in over the phone or whom your sales staff are visiting in the field.

Also available for Sage BusinessVision is eBusinessVision, an online web store that expands your market presence to a global audience. eBusinessVision provides a virtual storefront that allows you to upload your inventory, inventory pictures, pricing, and payment options to a hosted web store, where your customers can shop online, from anywhere, 24 hours a day, 7 days a week.

While Sage BusinessVision assists with making your selling process match the buying process of your customers, it also makes it easy to manage your inventory from a single location. With 19 different modules, Sage BusinessVision has the tools and reporting you need to serve your customers and manage your business.

Powered by Sage Payment Solutions

Sage BusinessVision also includes the tools you need to accept credit card and debit card payments from your customers. The ability to accept credit card and debit card payments¹ makes it easier for your customers to do business with your company, and because it is fully integrated, it also makes it easier for you to record payments from your customers. You simply indicate that a customer is paying using a credit card or debit card, and Sage Exchange handles the entire credit card or debit card payment process while recording the payment in Sage BusinessVision in one simple step. There's no double-entry like other payment processors require, and it reduces errors and speeds up the payment process during checkout.

The screenshot shows the Sage Exchange - Sage interface for Sage BusinessVision Accounting. The title is 'Sage BusinessVision Accounting'. Under 'Payment information', there are fields for 'Card number' (1234567890123456), 'Expiration date' (06/11), and 'CVV' (123). A 'Total' field shows 558.24. There are buttons for 'Sage Card', 'Click for Support', 'Back', 'Next', 'Submit', and 'Cancel'. A message box on the right says 'Thank you for using Sage Exchange' with the date '6/7/2011'.

Sage BusinessVision gives you the power to accept credit and debit card payments from customers for Accounts Receivable balances, for payments on orders placed in Order Entry, and for payment on items purchased in your storefront through Point-of-Sale. Additionally, eBusinessVision can take preauthorizations for items purchased on your web store, and finalizes the payment once the order is shipped through Order Entry.

With Sage Exchange and Sage BusinessVision together, Sage has the complete solution to manage your sales process from end to end so you can focus on what is important: your customers.

Features and Benefits

Integrated Credit Card and Debit Card Processing¹

Sage Exchange provides integrated credit card and debit card processing with Sage BusinessVision, allowing you to process sales and returns in a single step.

Accept Payments From Your Customers

Sage BusinessVision is designed to accept credit card and debit card payments through:

- Accounts Receivable, allowing customers to pay on account.
- Order Entry, allowing customers to pay for orders as they are placed.
- Point-of-Sale, allowing customers to pay when buying goods from a store.
- eBusinessVision, allowing you to accept preauthorizations that are finalized when online orders are shipped through Order Entry.

PA-DSS Compliant

Sage Exchange is PA-DSS compliant, helping your organization stay compliant with Payment Card Industry-Data Security Standard (PCI-DSS) requirements.

Credit Verification Version 2 Support

CVV2 helps verify card authenticity by validating that purchasers have their credit card in their possession, which helps reduce chargebacks for e-commerce and mail order purchases.

Address Verification Services

Address verification services add another layer of credit card authentication by comparing the purchaser's billing address with the billing address on record for their account.

Online Reporting

Secure online access to all of your credit card and debit card transaction information is provided for your merchant account 24 hours a day, 7 days a week.

Single Source for Support

Sage BusinessVision and Sage Exchange are fully integrated, and your software and all aspects of your payment process are supported through Sage, so you have the convenience of working with one vendor should questions arise.

¹ Subject to credit approval and to Sage Payment Solutions terms and conditions. Additional fees, including swipe terminal for card present transactions, Internet access, and credit/debit card required.
