DE 109518 KBId 91291
- 19 Commission Edit Register now prompts to update or post to payroll if the range includes invoices

already updated with a Yes.
DE 110337 KBId 95921

AvaTax

- 1 With The Avatax connector for Sage 100 2019 all countries in Sage 100 no longer change to ZW. Some clean up of the existing SY_Country.m4t table may be required. Two character country codes are no longer required by Avatax and should not be entered in Sage 100.
DE 106298 KBId 77585

Bar Code

- 1 An updated SetupConnectIt64.exe is being installed to the Sage 100 Server's ..\mas90\wksetup\Prerequisites\Scanco folder.
DE 109481
- 2 Mobility for Bar Code Enhancement, import batching can now be controlled by a batch comment from the hand held device.
DE 109758
- 3 Invoices getting imported into Sage 100 through Bar Code were getting the correct Ship Date set from the Ship/Expire Date entered on the sales order.
DE 108867
- 4 Bar Code Mobility Setup program now captures some additional fields, Contact Name, Email and Phone number.
DE 110512

Bill of Materials

- 1 Costed Bill of Materials Report with Report Type Selection of Bills now ignores Integer Unit of Measure for Miscellaneous Charges.
DE 106798 KBId 80821
- 2 Enhancement made to allow for syncing of Misc Charge item fields that are changed to the bill detail tables.
DE 107155 KBId 80817
- 3 "Record <Part Number> is missing..." error no longer occurs when running the Bill of Materials Summarized Where-Used Report in Sage 100 Premium.
DE 109057 KBId 89853
- 4 Component Item Extended description now shows in the picking sheet printout when you pick more than one bill item to print.
DE 108279 KBId 84980
- 5 The Component Extended Description will now print on first and any additional Bill of Materials Picking Sheets.
DE 107569 KBId 84980
- 6 ***Invalid Bill*** no longer prints on Summarized Bill of Materials Report for Option Bills with a component that is also a Bill of Material.
DE 109508 KBId 91220
- 7 Item status, selected from Drop Down list, in Production Entry no longer doubles available quantity.
DE 110179 KBId 94431

- 8 Replace and Delete Component is no longer removing the bill type on the BM_BillDetail line when a Bill is replaced by another Bill Component.
DE 109686 KBId 92369

Bank Reconciliation

- 1 Fixed Error #60: BR_CheckDepAdjustEntry_ui.pvc 916 when exiting BR Check, Deposit Adjustment Entry after performing sort on Checks and Dep/Adjustment Tabs.
DE 110193 KBId 94920
- 2 Bank Feeds matching rule added, if no check number exists in bank feed record, we only match date and amount and use the first match. Also, most transaction types with negative values are now mapped to "Withdrawal", positive values are now mapped to "Deposit". A log file has been added to the BRxxx, where xxx represents the company code and logs the last source values for the last download from Bank Feeds. Additionally, since A/P ACH (when post to B/R in detail) and wire transfers are written to B/R as check, if unable to find a withdrawal, matching will now look for a check.
DE 110185 KBId 94876
- 3 Check, Deposit and Adjustment Entry now is enable for banks that are not in use when in use message has occurred for a bank that is in use.
DE 109985
- 4 Formatting enhancements have been made to the Bank Reconciliation Report.
DE 109993

Common Item

- 1 In Direct Deposit Maintenance when an invalid routing/transit number is entered for the Immediate Destination a prompt now displays to accept the number.
DE 109319 KBId 90839

Customizer

- 1 UDFs are now generated in all companies on Sage 100 Premium if there are over 60 companies.
DE 109483 KBId 89889
- 2 Fixed Error 60 SY_SELECTION.PVC 2450 when clicking OK in UDT Maintenance selection screen.
DE 110155 KBId 94637
- 3 PO Receipt Header UDF now updates PO Purchase Order Header UDF.
DE 109212 KBId 84794
- 4 Drop-Box UDF no longer loses Drop-Box Functionality when Panel is Modified.
DE 104046 KBId 56619
- 5 Sales Order Number now displays in Item Maintenance on the Orders tab after adding the field to the grid with Custom Office.
DE 109293 KBId 90663
- 6 Required UDF is being enforced.
DE 108262 KBId 87102

CRM

- 1 New Sales Order Quote in Sage 100 no longer blanks out Order Type when CRM OTF Order opportunity is chosen.
DE 106504 KBId 79266
- 2 Launching Customer Maintenance and editing the customer immediately after linking a company to a customer no longer returns the message "Record has been changed by another user and the changes will not be saved upon accept".
DE 107248 KBId 34459
- 3 Import into AR_Customer does create new CRM companies automatically.
DE 107621 KBId 84986
- 4 The Memo button is now visible when accessing Customer Maintenance from Sage CRM.
DE 107378 KBId 83287
- 5 Added information to the "Cannot Synchronize Data with Sage CRM" message to help resolve the issue when no company records exist in Sage CRM.
DE 106275 KBId 78379
- 6 Quick Order Entry Component.exe is now being installed to the servers ..\mas90\CRM directory.
DE 106979 KBId 81968
- 7 Sage 100 Rebuild CRM no longer cuts off CRM Company Names more that 30 characters long.
DE 106109 KBId 77360

Fixed Assets

- 1 Error: "Report output exceeds printer width or record length exceeded on file write operation" is now fixed.
DE 107558 KBId 84954
- 2 Closing date is no longer different than the Sage Fixed Assets ending date
DE 109120 KBId 78842

General Ledger

- 1 General Ledger Financial Reports displayed data on Sage 100 2018.1 Premium.
DE 108738 KBId 88828

Inventory Management

- 1 The Retail Price is not disabled anymore, if user moves to different tab and check or uncheck the Allow Returns check box.
DE 107322 KBId 84240
- 2 Fixed Error 13 SY_SELECTION.PVC 1444 and Error 84 SY_SELECTION.PVC 1448 when clearing frozen items in Physical Count and "Keep Window Open After" print/preview is checked.
DE 110121
- 3 Inventory Valuation report now sorts properly in Sage 100 Premium (SQL)
DE 109587 KBId 73079
- 4 In Sales Kit Maintenance, a Component Item is no longer missing after viewing the extended description.
DE 109341
- 5 Corrected Inventory Transaction update to prompt to print "Daily Transaction Register" instead of "Job Daily Transaction Register".

- 9 No longer receive "Error 43 IM_LOTSERIALTRANSINQUIRY_UI.pvc 534" after selecting a Lot/Serial number with Extension greater than 99,999,999.99 in Lot/Serial Inquiry.
DE 107059 KBId 82748
- 10 Tier Type is no longer missing from IM_ItemCost after update quantity committed.
DE 109216 KBId 70886

e-Business Manager

- 1 "An error occurred while attempting to process the page you requested" no longer occurs when Company or Contact change in EBM for 2 different companies.
DE 110241
- 2 The message "An error occurred while attempting to process the page you requested. Contact your account representative or the Webmaster" when processing credit cards on a website using eBusiness Manager, can be resolved by copying the following files from the Sage 100 Server and adding/replacing them on the Server running the Web Engine: pvxclr4.dll, Sage.Exchange.dll, and wsVault.dll. Then run the Web Engine as an Application, not as a Service. There is another outstanding defect regarding the Web Engine running as a Service, see Knowledge Base entries 82537 and 82539.
DE 109996 KBId 93566

Job Cost

- 1 Trans Date in Job Posting Entry is now defaults to Module Date not System Date.
DE 108901 KBId 89332
- 2 Error "xx-xx-xxx is not on file" after migrating data to v2018 with a Cost Code length less than 9 characters.
DE 109195 KBId 90351
- 3 New Comments or changes to Comment are now retained in Job Maintenance.
DE 109101 KBId 89517
