# Build a bundle Add modules and combine functions to fit your requirements

Simply add any of the following modules to your core system to expand its capabilities. It can be adapted to fit your requirements, no matter how fast your business grows.

### Leave Management

The Leave Management Module lets you manage leave administration within the framework of the Basic Conditions of Employment Act (BCEA) and enforce company-specific leave policies. This module is fully integrated with existing payroll fields to eliminate double entries.

### Personnel Management (Basic HR)

The Personnel Management Module is embedded in Premier Payroll to give your HR manager immediate, easy-to-use access to accurate employee information and a host of key functions, like disciplinary actions, interviews, training, qualifications, career history, remuneration history and more.

### **Employment Equity**

The VIP Employment Equity Module provides you with fundamental guidelines on all aspects of Employment Equity required by latest South African legislation. It gives you step-by-step procedures for implementing all the components of Employment Equity in your company, developing numerical goals and targets and printing all Statutory Equity Reports (EEA2 and EEA4) for the Department of Labour.

#### **Skills Development**

The Skills Development Module gives you practical tools for managing all aspects of Skills Development, e.g. monitoring planned and attended training as well as direct and indirect training costs.

### **General Ledger**

The VIP General Ledger Module saves you time in balancing your salary journal and allows you to allocate salary costs according to general ledger account codes and cost centres. It will work with all major accounting software suites, including Sage Evolution, Sage ERP 300, Sage ERP X3, SAP, Oracle and Syspro.

### **Job Costing**

The Job Costing Module allows you to allocate labour costs to projects, different departments or business units. This means that if your employees work on more than one project or at more than one site in one pay period, you can allocate their labour costs by hours spent on different projects or at different sites.

### Loan Module

The Loan Module gives you a lending hand in managing and recording loans to staff. Our built-in loan calculator helps you reduce risk by calculating the maximum loan based on employee income and expenditure. Monthly loan statements allow you to manage interest rate changes effectively. The loan history functionality offers you complete control of loans across different pay periods.

### **SMART (Payroll Reporting)**

SMART (Solutions Manager and Reporting Tool) offers you several generic reports we've developed over the years to help you take the leap from raw data to decision-making.

Whether you're just starting out or you run a thriving mega-corporation, we'll craft an HR and payroll system to fit your business perfectly - one that'll grow as you grow, keeping your most valuable asset – your people – happy, motivated and continually driving your business forward.

### Intelligence Reporting

Sage VIP Intelligence Reporting empowers you to quickly and easily obtain the information required for improved reporting across your entire business. Based on the Microsoft Excel application the Intelligence Reporting module lets you effortlessly create reports and analyse data, improving your visibility into your organisation and helping you make informed business decisions. Users are provided with a suite of reports that can be modified or customised to suit individual user requirements, in addition to the existing payroll reports within the VIP system.

### InfoSlips (electronic & mobi payslips)

A VIP InfoSlip is an electronic payslip that not only mirrors the VIP paper payslip, but offers your employees an interactive compensation statement that shows them all their benefits in an easy-to-read, engaging format. Plus - the InfoSlip offers you a unique way to communicate with your employees: simply attach data in Microsoft Word or Excel and you have a powerful new communication channel for newsletters, travel claims, increase letters, etc.

All InfoSlip files (payslips and IRP5s) are archived online for seven years. Your employees can simply register online for access to historic InfoSlips or IRP5s.

### **Premier HR**

VIP Premier HR puts your people at the heart of the system. It's a logical, integrated and streamlined extension of the VIP Premier Payroll system, revolving around the HR responsibilities of your business. It allows you to manage your employees throughout the complete employee life cycle. Premier HR covers everything from jobs and positions, performance management, employment equity to learning and skills development, succession planning and employee files and documents.

### Premier Employee Self Service (ESS)

VIP Premier ESS makes leave processing a piece of cake. It gives your employees user-friendly tools to update their personal details, apply for leave, submit claims and overtime, do performance reviews and view payslips and IRP5s online.

Capturing, approving and maintaining your employees' leave becomes a streamlined, paperless process.

## Premier HR Puts your people at the heart of the system

VIP Premier HR helps you take care of your people - the heart of your business. With this standalone system, you can manage your employees throughout the complete employee life cycle. It takes care of everything from jobs and positions, performance management and employment equity to learning and skills development, succession planning and employee files and documents.

Premier HR is a logical, integrated, streamlined extension of the Premier Payroll system, revolving around the HR responsibilities of your business. What's more, you can incorporate the system seamlessly with other VIP modules like Intelligence Reporting, which will improve your visibility into your organisation and help you make informed business decisions.

### **Premier HR features:**

- Enjoy a process-driven system that follows a systematic HR approach.
- Replace your traditional employee files with easy-to-use electronic files with document attachments like CVs, IDs and certificates.
- Remind your employees, managers and users of important follow-up dates with scheduled, automatic email updates.
- Conduct a range of gap analyses to help you with general HR management.
- Allow your managers to access employee records, conduct performance reviews and print HR management reports.
- Access over 140 standard HR reports, including a host of summary, detail, grid analysis and graph reports.

### Core modules that keep your employees motivated

One thing that keeps employees happy and motivated is knowing that they're important and valuable to the business. By giving you the tools to manage employees' careers efficiently and accurately, Premier HR empowers you do this effectively.

### Manage jobs and positions

The Job Management Module follows a job-centric design. All other modules use information defined in the position profile, which allows you to capture:

- The location and competency requirements for all positions in the company hierarchy
- Key performance areas (KPAs) and indicators (KPIs)
- Qualifications and training and previous experience of the person

You can also conduct and print an employee suitability analysis where you have a shortlist of suitable candidates. And printing of up-to-date job profiles and organisational charts is quick and easy.

## Manage and record employee transactions

You can keep a complete employee record, including employee transactions and document attachments like disciplinary and grievance recording, training attended, qualifications achieved and more.

### Manage succession and career planning

Amongst a host of other tasks, you can:

- Earmark positions
- Plan career paths
- Link career and succession planning with equity and skills development plans
- Monitor and manage training and development for earmarked employees
- Print an organisational chart showing employees earmarked for succession

### Add-on modules

### Manage Employment Equity

This module allows you to manage employment equity in your organisation. You can:

- Define designated equity positions before recruitment starts
- Use the system's management reports to monitor and manage equity targets
- Print Statutory Equity Reports (EEA2 and EEA4) required by the Department of Labour

### Learning & Skills Development

With this module, Premier HR allows you to:

- Define scarce and critical skills at position level
- Link with the performance management process that enables you to set up a personal development action plan per employee
- Record development interventions and skills-related information per employee
- Print SETA-specific WSP and ATR Skills reports

#### **Employee Performance**

The Performance Management Module will let you:

- Prepare and conduct 360° performance and competency reviews
- Put together performance goals and personal development action plans per employee
- Formulate performance development plans per employee combining job requirements, review results and development areas

Premier HR works hand in hand with Premier ESS, allowing employees to complete their performance reviews online.

### **SMART HR (Reporting)**

The SMART HR (Solutions Manager and Reporting Tool) module lets you view and analyse data directly from the Premier HR system. It will allow you to see:

- A current workforce and training analysis
- Organisational charts that show the company reporting structure by level or as a whole

# Premier ESS The paperless process that empowers your employees

VIP Premier Employee Self Service (ESS) streamlines your HR processes by giving your employees user-friendly tools to update their personal details, apply for leave, submit claims and overtime, do performance reviews and view payslips and IRP5s online. It reduces admin and gives you more time to focus on the important issues – like moving your business forward.

### Making leave-processing a piece of cake

Because this online module integrates with our Premier Payroll and Premier HR systems, it cuts your capturing time by allowing your employees to apply for leave online. Capturing, approving and maintaining your employees' leave becomes a streamlined, paperless process.

It also lets you customise escalations of workflow items, reducing your company's financial liability by improving leave management.

### But just as it lets the right people in, it keeps the wrong people out

Premier ESS enforces stringent, internationallyaccepted standards of access control to authenticate users.

This means your data is always protected. For example, managers can access and update leave information for their department, whereas an employee sees how much leave they've taken and how much is left to take.

### How ESS makes your employees' lives a lot easier

With just a few clicks, you can enable or disable these handy features:

### Leave processing

• Employees can view their leave balances as they appear on the payroll database and apply for leave on the system.

### Online personal and family information

Your employees are able to view and update their personal information such as:

- · Names and contact numbers
- Banking details
- Emergency contact details
- Statutory information such as ID number, tax number, addresses
- Details of family members, next of kin, beneficiaries, etc.

### **Online payslips and IRP5s**

Because ESS saves a history of each employee's payslips and IRP5s, an employee can view all of these whenever they want to.

### **Expense claims**

### Online claims processing

ESS automates travel reimbursements, subsistence or expense claims. Your employee simply completes a form on ESS, the request is authorised, and the transaction is automatically reflected on their payslip.

### Online overtime processing

Your employees can capture overtime through the ESS system. As soon as the request has been approved, the hours are automatically reflected on your payroll. You can customise the overtime forms and allow employees to make file attachments if they need to.

### **Online performance reviews**

Employees can complete 360° performance and competency reviews online. Scores and comments captured will automatically reflect on the Premier HR system.

# How ESS makes your life a lot easier

- ESS saves you valuable time on leave capturing and processing.
- You can take control of leave processes by following leave applications in real-time.
- You can streamline the leave application process by setting up your company's leave rules exactly as you want them.
- Transactions are automatically updated in your payroll database.
- The system informs managers of all transactions by email.
- Your managers can view their team's leave applications and various reports to help them manage leave.
- Leave transactions can be integrated into your Microsoft Outlook calendar.
- The system authenticates users through Microsoft Active Directory.
- Your employees' accounts are secured with a username and password.

### Reports

The ESS system ships with the following reports to make your leave processing and maintenance more effective:

- Leave Balance Report: creates reports for individuals or groups.
- Leave Transaction Report: lets you view transactions awaiting approval.
- Manager Leave Calendar Report: gives your managers a graphic report of staff on leave.
