

# SAMSUNG HOSPITALITY DISPLAYS

## HF693 SERIES (North America)

### HIGHLIGHTS

- Amplify guests' content engagement through clear, comfortable pillow speakers
- Build and launch compatible web applications within the powerful TIZEN OS
- Maintain optimal content performance via the integrated H.Browser
- Simplify operations by offering healthcare providers a tailored home menu
- Develop and share personalized content through the centralized LYNK REACH 4.0 server
- Manage multi-display networks more efficiently over the LYNK HMS server

### PILLOW SPEAKER OUT AND MULTI-CODE REMOTE

Samsung's HF693 displays with pillow speakers enable guests to enjoy clear audio streaming, control displays and call a nurse at the push of a single button. A multi-code remote also deters interference and distraction from neighboring displays.

### SIMPLE, COMPATIBLE WEB APP DEVELOPMENT

Samsung's H.Browser empowers fast and accurate application development. Through a host of TIZEN-based tools, developers can test each application's security and performance prior to launch, and safely store them within the OS.

### CENTRALIZED, REAL-TIME MANAGEMENT

LYNK REACH 4.0's centralized, real-time monitoring can detect and troubleshoot issues before they become issues for guests. Compatibility with LAN, Wi-Fi and coaxial infrastructures drives more effective management and monitoring.

### CONVENIENT AND THOROUGH ROOM MANAGEMENT

LYNK HMS allows staff to view maintenance needs and energy usage for efficient and convenient room management. This platform also shares an interface where guests can control multiple in-room components from a single source.

### POWERFUL GRAPHIC PERFORMANCE WITH ENHANCED SECURITY

HF693 displays leverages TIZEN OS's rigorous three-layer protection to ensure content security across application, platform and system. The integrated H.Browser can render and upload 2D/3D content securely and at a faster pace.

### A TAILORED HOME MENU FOR GUESTS

Hotel managers can leverage TIZEN to build and deploy customizable home menu that suits their brand and operational needs. Both staffs and guests can enjoy the convenience of an intuitive, easy-to-navigate interface.

### END-TO-END PERSONALIZED SERVICE

As guests arrive, hotels can deploy personalized welcome message and relevant promotional items through LYNK REACH 4.0's customized content offerings. They also can express checkout to ensure a pleasant conclusion to any stay.

### DELIGHT GUESTS AT A REDUCED COST

LYNK HMS delivers pleasant and memorable guest experience in a more cost-efficient manner. Hotel operators can streamline content delivery property-wide while also managing heat and air activity based on room occupancy.
