# Accessing Applications Menus

Use the Applications menus to access phone features.

Your phone displays calls as follows for the highlighted line:

- Calls with the highest precedence and longest duration display at the top of the list.

- Calls of a similar type are grouped together. For example, calls that you have interacted with are grouped near the top, and calls on hold are grouped last.

## Transferring Calls

Transfer redirects a connected call. The

- You cannot use **Transfer** to redirect a call on hold. Press     again to remove the call from hold

Drop the last participant
added to the conference

# Advanced Call Handling

# Picking Up a Redirected Call on Your Phone

Call PickUp allows you to answer a call that is ringing on a co-worker's phone by redirecting the call

- ⚙ call—The phone is receiving and transmitting encrypted audio (your conversation) with

# Using Cisco Extension Mobility

Cisco Extension Mobility (EM) allows you to temporarily configure a Cisco Unified IP Phone as your

**Tips**

-

Delete a PAB entry
1. Search for a listing.
2. Highlight the listing and press **Delete**.
3. Press **Edit**

# Accessing Voice Messages

To access voice messages, press

**Tips**
- You can create up to 500 Fast Dial and PAB entries.
- You can create a new Fast Dial entry without using a PAB entry. Such Fast Dial entries are labeled "raw" in the User Options pages and do not display a configurable text label.

## Using the Address Book

# Controlling User Settings on the Web

User settings include your password, PIN, and language (locale) settings.

**Tip**

Your PIN and password allow you to access different features and services. For example, use your PIN to log in to Cisco Extension Mobility or Personal Directory on your phone. Use your password to log
