Build and Manage the Lifecycle of the BY\k cf_`: ci bXUh]cb`

8]X mci `_bck `h\Uh]b U hmd]WU``Y[UW\mbY\k cf_ž, $ dYfWYbh of IT costs have to do with maintaining the network, and just 20 percent with product acquisition? As a network ages, inefficiencies accumulate and can present themselves in different ways, often in the cost of operations and the risk of downtime.

K Y fYWca a YbX U ghfi Wi fYX fYj]Yk UbX gdf]b[WYUb]b[cZ existing network resources. This will show the true operational costs and make it possible to remove duplicate technologies,
