

# Cisco Nexus 9000 Series Switches

## Benefits

- Boost your data centre's performance
- Make your IT operations simpler
- Maximise network uptime
- Be ready for tomorrow's applications

## Be Future-Ready

Prepare your data centre for the digital future. Cisco Nexus 9000 Series Switches are ideal for organisations looking to meet pressing business needs at a competitive price. They're quick to deploy, simple to manage, and deliver a full feature set with security assured.

Whether you want to simplify your existing data centre, modernise your application estate or start your journey to the cloud, the Nexus 9000 Series (Figure 1) means you can easily take things to the next level.

## Flexibility for Every Setup

---

The Nexus 9000 Series is a compact and powerful set of switches that includes three platforms: Cisco Nexus 9500, 9300, and 9200.

With connectivity from 1 to 100Gbps, you can increase network capacity and minimise bottlenecks without breaking the bank. What's more, they're great for both greenfield sites and existing data centres:

- Use them top of rack, in the middle or end of row
- Simple to set up and scale in line with your needs

## Simple and Cost Efficient

---

Harness the benefits of orchestration and automation. The Nexus 9000 series supports Cisco Application Centric Infrastructure (ACI). This open and programmable infrastructure allows you to take the strain off your IT staff and gives them more time to focus on innovation.

- Automate everyday tasks, simplify policy management and configure your network quickly
- Reduce tech support calls, drive greater productivity and deliver a great user experience with high availability and performance guaranteed

## Ready for Tomorrow's Applications

---

An open and programmable network fabric means you can roll out applications faster and react quickly to change. The Cisco Nexus 9000 Series gives you the flexibility you need to explore new business models and stay ahead of the competition.

## Get started today

Let's scale. Our solutions allow you to start small, grow and innovate quickly. With Cisco, you'll always be ready for the digital future.
