Build, Expand, and Evolve with the
# Oracle Acquisition Platform
Cloud / On Premise / Hybrid

The Oracle Acquisition Platform is a customized and flexible acquisition approach for any combination of products — including integrated cloud applications, platform services, and engineered systems — to help your organization quickly and efficiently meet the full spectrum of modern business needs.

FINANCIAL FLEXIBILITY

Customize an IT investment plan tailored to your unique business needs that can reduce your total cost of acquisition and ownership.

Respond rapidly as new business opportunities emerge and scale IT capabilities quickly to meet changing demands.

LIMITLESS CHOICES

Invest in the **right technology** at the right time – in the Cloud, on premise, or with a hybrid approach.

Increase your buying power with a **full range of financial solutions** that map to your business or project milestones.

EXPERT GUIDANCE

Work with Oracle's team of financial experts to understand and analyze the variety of IT investment approaches that can support your long-term decision-making and **enable your business to prepare for the future.**
