STEELBRICK NOTICES AND LICENSE INFORMATION

Last Updated: March 1, 2016

Services Covered

This Documentation is applicable to the managed packages branded as SteelBrick (the "SteelBrick Services") provided by salesforce.com, inc. and its affiliates ("Salesforce"). This Documentation applies to the SteelBrick Services by virtue of their distribution as managed packages and as auxiliary components of the services provided by Salesforce branded as "Salesforce Services."

Purpose of this Documentation

This Documentation describes features, restrictions and notices associated with any:
- information sourced from third parties and provided to Users via the SteelBrick Services;
- SteelBrick Services functionality that allows Users to interact with third-party products, services or platforms; and
- desktop and mobile device software applications provided in connection with the SteelBrick Services.

Customer Data

This Documentation does not modify Salesforce's obligations with respect to any data submitted by Customers to the SteelBrick Services ("Customer Data").

Third-Party Platforms

The SteelBrick Services allow Users to interact with third-party products, services and platforms, including Non-Salesforce.com Applications, websites, products, services and platforms operated by or on behalf of a Customer of the SteelBrick Services (collectively "Third-Party Platforms").
- Customers must enable the SteelBrick Services as may be required to access their Third Party-Platform accounts.
- The SteelBrick Services may access, collect, process, and/or store information or content from Third-Party Platform accounts (including information otherwise classified as Customer Data under a Customer's agreement with Salesforce).
- Customers are solely responsible for any content their Users provide to any Third-Party Platform.
- Customers are solely responsible for any information accessed by their Users or any third party from any Third-Party Platform.

- Customers are solely responsible for their Users' interactions or communications with third parties through any Third-Party Platforms.
- Customers are solely responsible for any transactions relating to a separate agreement or arrangement between Customers or their Users and any Third-Party Platform provider or website and otherwise complying with such agreements.
- Customers are solely responsible for ensuring they have the necessary rights from any Third-Party Platform provider to enable the integration between Salesforce Services and the Third-Party Platform.

Social Accounts, Contacts and Leads Feature

Content from the following third parties may be available to Customer through use of the Social Accounts, Contacts and Leads features. Customer's use of such third party content must comply with the additional terms and policies as noted below:

- **Twitter**: Customer's use of Twitter content must comply with the Twitter Terms of Service, the Twitter privacy policy, and the Twitter Public API terms.
- **Facebook**: Customer's use of Facebook content must comply with the Facebook Terms of Service, and the Facebook Public API terms.
- **Klout**: Customer's use of Klout content must comply with the Klout Platform Terms of Service.
- **YouTube**: Customer's use of YouTube content must comply with the YouTube Terms of Service and the YouTube Public API terms.

Quick Contact Import Feature

Content from the following third parties may be available to Customer through use of the Reach feature. Customer's use of such third party content must comply with the additional terms and policies as noted below:

- **Google**: Customer's use of Google content must comply with the Google Terms of Service and the Google Privacy Policy.

Chatter Third Party Integrations

The Chatter Embedly integration is provided under agreement with Embedly, Inc.

Account News Feature

The Account News feature uses technology provided by Data.com and Yahoo. Content from the following third parties may be available to Customer through use of the Account News feature. Customer's use of such third party content must comply with the additional terms and policies as noted below:

- **Yahoo**: Customer's use of Yahoo content must comply with the Yahoo Terms of Service.

- **Twitter**: Customer's use of Twitter content must comply with the Twitter Terms of Service, the Twitter privacy policy, and the Twitter Public API terms.

Files Connect Feature

Customer may integrate SteelBrick Services with certain Third Party Platforms through use of the Files Connect feature. Customers are solely responsible for ensuring they have the necessary rights from any Third Party Platform provider to enable the integration between Files Connect and the Third Party Platform, and to allow the use of Files Connect by Customer or their Users. Customer's use of Files Connect with Third Party Platforms must comply with any separate agreement or arrangement between Customer or their Users and the applicable Third Party Platform provider(s), and the additional terms and policies as noted below:

- **Google Drive**: Customer's use of Google Drive must comply with the Google Terms of Service and the Google Privacy Policy.

Google Maps

Customers using any Google Maps feature or integration as part of the Salesforce Services use such feature, integration and related content subject to all of the following terms, which salesforce.com is obligated to pass through to its Customers.

- Customer is not allowed and will not allow any third party to:
    - Use Google Maps for any uses such as the operation of emergency services, nuclear facilities, air traffic control or life support systems, where the use of failure of Google Maps could lead to death, personal injury, or environmental damage.
    - Use Google Maps to create a service whose stand-alone functionality is substantially similar to Google Maps.
    - Extract any content from Google Maps to be used outside of Google Maps.
    - Use Google Maps to store or transfer data that is controlled for export under any and all applicable export and re-export laws and regulations, including the Export Administration Regulation ("EAR") maintained by the U.S. Department of Commerce, trade and economic sanctions maintained by the U.S. Treasury Department's Office of Foreign Assets Control, and the International Traffic in Arms Regulations ("ITAR") marinated by the U.S. Department of State.
    - Use Google Maps directly or indirectly in connection with nuclear activities, biological or chemical weapons, missile technology, or end users prohibited by any export and re-export control laws.
- Customer's use of Google Maps must comply with the Google Maps Legal Notices, Google Maps Terms, and Google's Acceptable Use Policy.
- Customer grants to Google, Inc. a sublicensable, non-transferable, non-exclusive, perpetual, irrevocable, royalty-free license to use any data Customer submits to Google, Inc. through Customer's use of any Google Maps feature or integration provided via the Salesforce Services for the sole purpose of providing the Google Maps feature or integration.
- Customer shall not use any Google Maps feature or integration in any country where Google is restricted by applicable law or regulatory agency from providing Google Maps. Please refer to Google's "Prohibited Territory" list for a list of restricted countries.

3

Exchange Sync

Customers using any Exchange Sync feature or integration as part of the SteelBrick Services must ensure they have all applicable license rights from Microsoft to use and enable the Exchange Sync feature, integration and related content.

Distributed Software

- The Order Form Supplement for the SteelBrick Services desktop and mobile applications listed below can be found on the Agreements and Terms page of the salesforce.com legal website.

  Salesforce1 for iOS
  Salesforce1 for Android
  Salesforce1 for Windows
  SalesforceA for iOS
  SalesforceA for Android
  SalesforceA for Windows
  Salesforce Mobile for iPhone
  Salesforce Mobile for Blackberry
  Chatter Desktop
  Salesforce Chatter for iPhone/iPad
  Salesforce Chatter for Blackberry
  Salesforce for Outlook
  Order Form Supplement for Salesforce Work.com for iPhone/iPad
  Salesforce Authenticator for iOS
  Salesforce Authenticator for Android

- Notices required by licensors related to the SteelBrick Services desktop and mobile applications and any other offline components associated with the SteelBrick Services may be found at the links provided below.
- Please see the Marketing Cloud Open Source website for any notices required by licensors related to distributed components of the Marketing Cloud Services.

Interoperation with Other Salesforce Services

The Salesforce Services may interoperate with other services provided by Salesforce. The Notices and License Information documentation for such services is available in the Trust and Compliance Documentation section of help.salesforce.com.
