- The latest cumulative package for i 7.3 is: C0128730
- Cumulative package C0128730 began shipping worldwide:
15 May 2020.
- Date cumulative PTF package instructions last updated:
15 May 2020.
- The next cumulative package is scheduled for 20 Nov 2020.

NOTE: THIS DATE MAY CHANGE WITHOUT NOTICE, CHECK THIS FILE
BEFORE ORDERING.

- Users should order Preventive Service Planning (PSP) information and review the recommended HIPER PTFs on a weekly basis. The PSPs can be viewed through the Internet at URL:
<http://www.ibm.com/support/docview.wss?uid=nas8N1021657>
- It is important that users review and understand all new software release considerations. This is especially true of discontinued support for selected software and hardware products and/or features. To get the most current information on discontinued products and/or features along with suggested replacements, go to the IBM i operating system Planning Web site:
<http://www.ibm.com/systems/support/i/planning/>
- To review the IBM i operating system Information Center information on installation, upgrades, and migration, follow the link:
http://www-01.ibm.com/support/knowledgecenter/ssw_ibm_i/welcome
You may find this information useful to install hardware and software, upgrade to a different OS/400 release, upgrade your hardware, or migrate your data from one server to another.

DETAILED DESCRIPTIONS:

NOTE: Refer to the chart above for a list of the currently available PSPs.

- SF99730 - Order this PTF number when you would like to receive the latest cumulative PTF package that is available in your country.
- SF99729 - Ordering this PTF number will result in the shipment of a CD-ROM containing all known HIPERs. SF99729 will be refreshed on Tuesday of every other week.
- SF98191 - This PSP contains a short version of the cumulative PTF instructions and the detailed installation instructions for a previous cumulative package.
- SF96191 - This PSP contains the listing of PTFs on the cumulative PTF package for a previous cumulative package.
- SF98192 - This PSP contains a short version of the cumulative PTF instructions and the detailed installation instructions for a previous cumulative package.
- SF96192 - This PSP contains the listing of PTFs on the cumulative PTF package for a previous cumulative package.
- SF98193 - This PSP contains a short version of the cumulative PTF instructions and the detailed installation instructions for the current cumulative package.
- SF96193 - This PSP contains the listing of PTFs on the cumulative PTF package for the current cumulative package.
- SF98730 - This PSP contains information on all known High Impact and Pervasive (HIPER) PTF problems that are NOT included in the latest cumulative PTF package but may affect your operation. This PSP also contains General Information items. If there are any defective PTFs that were in the cumulative PTF package, they would also be listed in the PTFs in Error Section of this PSP.
- SF98195 - This PSP provides information for a specific cumulative PTF package level. The summary table (above) cross references the PSP number to the cumulative package level. Order the PSP number that corresponds to the cumulative package you are installing or last installed. This PSP contains HIPERs and General Information items. If there are any defective PTFs that were in the cumulative PTF package, they would also be listed in the PTFs in Error Section of this PSP. The PSP for the cumulative package you have installed should be ordered periodically and reviewed for the latest information on known problems.
- SF98194 - This PSP provides information for a specific cumulative PTF package level. The summary table (above) cross references the PSP number to the cumulative package level. Order the PSP number that corresponds to the cumulative package you are

installing or last installed. This PSP contains HIPERs and General Information items. If there are any defective PTFs that were in the cumulative PTF package, they would also be listed in the PTFs in Error Section of this PSP. The PSP for the cumulative package you have installed should be ordered periodically and reviewed for the latest information on known problems.

- SF98190 - This PSP provides software installation information that should be reviewed before installing i 7.3 and before adding new program products. Information in this PSP is grouped by product areas that may affect you during installation.
- SF98196 - This PSP file contains information about Upgrades & Migrations, including PTFs that are critical to operations that occur during the upgrade process and corrections to the Upgrade and Migration topics in the Information Center (i 7.3).
- SF98123 - A file containing the "Memo To Users" and the "Read This First" documents is available by ordering this PTF number. A printed copy of these documents is included with every i 7.3 shipment. This file is available as a convenience for those users who misplace their original copy.
- SF98197 - This PSP contains a summary of PTFs that have been identified as High Impact or Pervasive problems and a summary of Defective PTFs (PTFs that have been found to be in error).
- SF98198 - This PSP provides a complete list of i 7.3 Defective PTFs (PTFs in Error). Users who regularly order and apply individual PTFs should periodically review this PSP.
- SF98199 - This PSP provides a complete list of all the High Impact or Pervasive (HIPER) problems that have been discovered for i 7.3. Those users who support several systems at different cumulative package levels may find this PSP useful.
- MF98730 - This PSP provides information that should be reviewed before installing new systems or hardware devices. Problems that may affect the installation or operation of hardware devices are documented here.
- MH98730 - HMC code must be current. Review HMC information at:
<http://www14.software.ibm.com/webapp/set2/sas/f/hmc/home.html>
or refer to the HMC Code Updates document in Recommended Fixes:
<http://www-01.ibm.com/support/docview.wss?uid=nas8N1021480>
- MH98731 - This document applies to IBM i operating systems that have the Firmware Update Policy set to Operating System or systems not managed by an HMC. The server firmware information in this document does not apply to Model 595 systems. Server firmware fixes are ordered (using the SNDPTFORD command or Fix Central)

and installed as PTFs using the IBM i operating system PTF installation functions. These PTFs have a prefix of MH. Refer to the Server Firmware: Update policy set to Operating System document in Recommended Fixes for more information:
<http://www-01.ibm.com/support/docview.wss?uid=nas8N1021480>

SF97063 - This PSP provides a listing to assist you when upgrading from i 7.1 to i 7.3. This listing allows you to analyze the PTFs/Fixes you currently have installed on your i 7.1 system and determine which i 7.3 PTFs/Fixes you need to order to maintain the same or higher PTF/Fix level as you upgrade to i 7.3.

SF97064 - This PSP provides a listing to assist you when upgrading from i 7.2 to i 7.3. This listing allows you to analyze the PTFs/Fixes you currently have installed on your i 7.2 system and determine which i 7.3 PTFs/Fixes you need to order to maintain the same or higher PTF/Fix level as you upgrade to i 7.3.

SF97730 - The listing provides you with a convenient reference of the license internal code fixes (fixes) and program temporary fixes (PTFS) that are available by IBM licensed program categories. This listing is updated regularly. You may choose to order a PTF/FIX that would effect one of your IBM licensed programs.

This section contains general information concerning the installation and operation of i 7.3.

1. NO ENTRIES

S E R V I C E R E C O M M E N D A T I O N S

This section provides details on High Impact or Pervasive

(HIPER) problems. The PTFs that fix the problems identified in this section are available as individual PTFs.

NOTE: HIPERS that were included in the first cumulative PTF package are not included in this list. All users are expected to have installed at least one cumulative package so those PTFs will already be applied to their systems.

- 'PROBLEM' - This field provides a reference to the APAR that addresses the problem (ie: SE01234), the Licensed Program Number, and a brief description of the problem.
- 'USERS AFFECTED' - This field describes the users who are exposed to this problem.
- 'RECOMMENDATION' - This field describes the action you should take to avoid the problem.

NOTE: You should evaluate each entry to determine the impact of the problem to your operations. Depending on your environment and the requirements of your users, you may need to follow the recommendation immediately or you may be able to incorporate the recommendation into future system maintenance.

Restores of the QUSRSYS library fail to restore
*UBPSPC (licensing usage) objects for products
that are not currently installed.
USERS AFFECTED: All IBM i operating system users.
RECOMMENDATION: Apply PTF SI74275. If possible, the PTF
should be applied to a source system before
backing up for recovery or migration
purposes. If this is not possible, it is
recommended to apply before restoring the

QUSRSYS library on the recovery target system. If this is also not possible, any errors relating to the restore of *UBPSPC objects during the restore of QUSRSYS may be temporarily ignored. Another attempt to restore the library may be made after the PTF can be applied.

This section provides a list of PTFs included in this cumulative PTF package that were found to cause problems for some users after this package began shipping. You should review the 'USERS AFFECTED' field for each item to decide if you are exposed to the problem. If you are exposed to the problem, the 'RECOMMENDATION' should be followed.

Users who regularly order and apply individual PTFs should periodically review PSP SF98198.

Under certain conditions, we recommend that a PTF applied to your system be removed or that a PTF be omitted when applying a cumulative package. Instructions for removing and omitting PTFs follow the PTFs in error.

- 'DEFECTIVE PTF' - This field contains the identity (PTF number) of the PTF that is defective.
- 'LICENSED PROGRAM NUMBER' - The Licensed Program Number
- 'APAR NUMBER' - The identity of the APAR that reports the problem.
- 'USERS AFFECTED' - This field describes the users who are exposed to the problem.
- 'REASON DEFECTIVE' - This field provides a description of the problem caused by the error in the PTF.
- 'RECOMMENDATION' - This field describes the action you should take to avoid the problem.

1. 06 Oct 2020 DEFECTIVE PTF: SI74198 for i 7.3
SI74181 for i 7.3
SI73910 for i 7.3
SI73744 for i 7.3
SI73735 for i 7.3
SI73109 for i 7.3
SI71844 for i 7.3

LICENSED PROGRAM = 5770SS1
APAR NUMBER: SE74370

USERS AFFECTED: All IBM i operating system users.
REASON DEFECTIVE: After applying the PTF, a restore of the QUSRSYS library fails to restore *UBPSPC (licensing usage) objects for products that are not currently installed.

RECOMMENDATION: Apply fixing PTF SI74275.

If possible, the fixing PTF should be applied to a source system before backing up for recovery or migration purposes. If this is not possible, it is recommended to apply before restoring the QUSRSYS library on the recovery target system. If this is also not possible, any errors relating to the restore of *UBPSPC objects during the restore of QUSRSYS may be temporarily ignored. Another attempt to restore the library may be made after the fixing PTF can be applied.

OMITTING A PTF

Refer to Appendix A in the detailed cumulative PTF package installation instructions.
