

Express Super

The path to easy super processing

Express Super takes the complexity out of superannuation processing and minimises the risk of non-compliance.

Express Super is a superannuation clearing service that manages the administrative burden of different superannuation fund payments on your behalf through our payroll software.

This service enables employers to send a single contributions file and a matching EFT file for all funds through a secure Express Super portal.

3 simple steps is all it takes for Express Super to distribute the information and contributions to your employee's chosen superannuation funds.

Express Super benefits include:

- **One File, One Payment**
The Express Super process requires only one data file for uploading to your portal and one matching EFT file for distribution to your super funds.
- **Accelerate your productivity and save money**
Drastically reduces processing time. In a survey, 72% of our customers reporting a time saving of between 2 to 8 hours compared to manual processing*.
- **Integrated and Simple**
Your Sage MicrOpay payroll software is developed to transfer data with the Express Super portal.
- **Be Compliant**
Express Super was developed in conjunction with SuperChoice to meet the government's SuperStream guidelines ensuring all Express Super customers are compliant.
- **Automatic Validation of data**
The Express Super service validates data and transactions prior to making payments to funds.
- **We're here to help**
Our trained Express Super Consultants will work with you ensuring you're all set for your first Express Super process, in addition our Help Desk is available to provide ongoing support when you need it most.
