

Cisco Mobility Express and Cisco CMX Cloud: Better Together

New Offer Easily Integrates Cisco Mobility Express and Cisco CMX Cloud

With Cisco® Mobility Express and Cisco Connected Mobile Experiences (CMX) Cloud, you can:

Deploy simple, fast, low-cost wireless network and location services in minutes

Provide enterprise-class Wi-Fi features, professional captive guest portals, and presence analytics without appliance and management overhead

Monitor and troubleshoot the network via the Cisco Wireless Mobile App, available in the Google Play Store and Apple App Store

Cisco Mobility Express and Cisco CMX Cloud Promotion

Buy Cisco Mobility Express and get a one-year Cisco CMX Cloud subscription at no cost.

Cisco Mobility Express

In three easy steps, set up an enterprise-class Wi-Fi network in a small or medium-sized business. And get industry-leading functionality, including guest access and RF parameter optimization, with our advanced settings. Without limiting your future options.

Cisco CMX Cloud

Get more from your wireless than simple connectivity. Cisco CMX Cloud lets you create custom captive portals with CMX Connect and get presence analytics to determine how customers and employees interact with you and when.

Next Steps

- Purchase up to 25 Cisco Mobility Express access points.
- Software license claim certifications containing a Product Authorization Key (PAK) have been included with the Cisco Mobility Express access point. The PAK is required to generate a license in Cisco CMX Cloud, so do not discard the claim certificate. Retain the claim certificate and activate the licenses per the instructions at cs.co/9007868sx.
- Up to 25 PAK inserts can be activated within a CMX account (email address).

Contact your Cisco account manager or partner for more information.
